

From Me to You – The Christ Letters for the Second Coming 11

New Beginnings

Thursday, July 18, 2024 8:15am

1. Greetings to all awakened aspects of the one Self on this magnificent planet Earth. It is I, Mother Mary, Chief Executive Officer of the Christ project. As always, it is my passion and joy to address this group and each of you individually. This is our time of unity through union with each other, as we join our individualized energies and become one cohesive unit. Let us begin this month's letters with the topic of New Beginnings.
2. Simply put, we are creating a new world by joining the individualized Christ, the elevated Self of form, with other elevated Selves of form and with unseen guides to form one cohesive body of energy in a place where there is only unbridled ego and false thoughts of competition and separation. Fear is the guide here in the illusionary upside down world that the ego created, while we only offer love.
3. As each of you have awakened and allowed the truth in you to grow by resisting less and less over time, you have undoubtedly met other pioneers in the new way and joined with them from time to time or during regularly scheduled times. This is very crucially important, dear ones. When you join your very strong souls together for conversation about the written offerings, you are strengthening the One Self. You are helping it to grow, while growing individually simultaneously.
4. Your time of learning *per se* has passed and now it is time to share what you know in the way that only you can. Please consider joining a group if you haven't already done so or start a new one. Focus on being Christ in this crazy world and support one another unconditionally in this time of new beginnings.
5. In Christ,
Mother Mary

Training Grounds

Thursday, July 18, 2024 9:15am

1. Dearest ones in Christ,
2. Driving this ship in the fog of the fear-based world can be tricky, but let me show you the map so we can see there we are going.
3. Participating in formal or informal discussion groups about Christ-based materials is a very good thing for the individual Christ and the collective. It is strengthening in nature and helps the individual Christ to feel strengthened in his or her daily life as Christ, or ministry of being and doing. Sometimes the ego can flare up but even this is a very good exercise in learning how to handle such things, which are invariably going to present themselves from time to time.
4. These materials are the true teachings of Christ that have come to the surface after being repressed and distorted for millennia. You can say that we are practicing the truest and purest form of Christianity that there is. We aren't following or believing in Christ as much as we are being Christ, being God in form. This is a revolutionary mission that we are on, sisters and brothers. Revolutionary! The ego kept us at bay for more than 2000 years since my time on earth and now look at what has happened. I have returned yet again and each of you has joined me, but where are we going?
5. Now that we have a wonderfully challenging new book for beginners [Soul in the Driver's Seat](#), we are anticipating that brand new people will want to join a mentoring group with age old sages at the helm. This is what groups have provided – training for leaders of love and wisdom.
6. In Christ,
Mother Mary

From Me to You – The Christ Letters for the Second Coming 13 Flashlights

Thursday, July 18, 2024 11:35am

1. Dearest members of the Christ body,
2. To review: The eagle has landed. The offices of Christ are open. Love ministries are flowing. There is an ever-growing spiritual energy on the earth now. Nothing and no one can stop us now. Jesus, St. Germain, and I were stopped millennia ago, but that is because our energy wasn't strong enough to survive. The little that did survive was so skeletal and so distorted that it became the basis for ego-based religions seeped in the desire to control. The truth was lost and virtually not found anywhere. Humans were not given proper and complete education about their egos and their souls, and were left wandering in the desert so to speak. They were left to their own devices.
3. No longer. We have a beautiful body of work now from many receivers and we have a new book that explains the basics for newbies in easy-to-understand language. We are still operating under the radar, but only for now. This has been said before, but the ego knows that there is something here that wasn't here before. It smells a rat and doesn't like it. It doesn't know what Christ is or what the soul is, but it feels threatened by it. This simple statement explains much of what you see in the world.
4. We don't have a human leader. There is no church. We come from every religious tradition and from none of them. We are flashlights showing the way home to those who have longed and thirsted for it for so long.
5. In Christ,
Mother Mary

The Divine Feminine in Full Manifestation

Thursday, July 18, 2024 7:40pm

1. Dearest Christs,
2. In May, I described my new role and our new energy configuration. I want you each to know some specifics about this since, of course, it directly involves you.
3. The world of ego is a very mind-based reality that has been primarily patriarchal in nature. It has been and still is a masculine (with a small 'm') mind-based place with the masculine being in control of society and religion. The feminine purpose was only to serve the male until recent times. This is just an example of the upside-down nature of things here.
4. Jesus was, in actuality, an example of the divine masculine, a model to elevate patriarchy. It failed because Jesus was seen as a God figure, not an ordinary man and not an example for all, but just being a very special case. The divine masculine is part of the divine feminine, which is a complete whole. In and of itself, the divine masculine is not whole because it misses a key ingredient. The feminine is life giving and the masculine is life supporting. The divine feminine includes both parts but the divine masculine does not. It was a failed model.
5. I AM the Chief Executive Officer of the Divine Feminine energy, and this is where you come in. Your energy is both life giving and life supporting. You don't know this, but your physical presence may in fact cause the Christ seed to germinate in someone. This is where blessings come in. The educational materials we have provided are life supporting, thus you are both energies. You are the divine feminine in form.
6. In Christ,
Mother Mary

The Individual Christ

Friday, July 19, 2024 5:00am

1. Dearest Christ Companions,
2. While Christ is a unified energy between the seen and the unseen, the individual Christ's ministry can at least seem separate from another Christ's ministry. They aren't of course and yet one could be in one place, and another could be in another part of the world. They will involve ministering (or blessing) different people, perhaps from different cultures and speaking different languages. Yet, all Christs are doing the same exact thing. They are extending love to love. They can do this silently or aloud. They can do this up close and personal, or from afar. They can supplement this energy extension (blessing) with a good deed or two or three. These are all examples of life-giving activities. If asked (and only if you are asked), move into life support by getting someone started with their spiritual education. [Soul in the Driver's Seat](#) is the starting point. Suggest other materials and participation in discussion groups as you feel may be appropriate. This is what Christ does. It gives and supports (eternal and never ending) life through the vehicle of the temporary (the body).
3. This may sound like a tall order and yet each of you does these things seamlessly. The purpose of this month's letters is to provide a type of mission statement in real and practical terms so that we can all be on the same page. Bless and repeat. Bless and repeat. Bless and repeat and don't forget to include taking care of yourself in the process.

4. Until September.

Mother Mary
